

Application Engineer

The EVAPCO Group, an American Company founded in 1976, is the leading supplier of Evaporative Cooling Products for the Air Conditioning, Industrial Process Cooling and Industrial Refrigeration Markets around the world. EVAPCO products are at present produced in 17 factories around the globe. The European Headquarters are located in Tongeren, Belgium.

Function Description

You will join our applications engineering team and start with a thorough training on our products and applications. After completion of the internal training you will become the primary point of contact for the sales network, regarding technical and sales support of the EVAPCO products. Together with our local representative you are responsible for achieving the predefined commercial objectives. You form the bridge between sales and production for processing orders. In addition to the sales support tasks, you will work product-oriented on the development of our sales & marketing tools.

You are able to support, facilitate and participate in various projects and work closely together with the production team.

Profile

To be successful in this function it is recommended to have either a Master of Science in Industrial Engineering or a Professional Bachelor degree with relevant experience in an industrial Sales environment. You communicate well both verbally and in writing with colleagues, representatives and customers. A good knowledge of the English language is essential, German and French language skills would be of further benefit.

Offer

Evapco offers you :

- A challenging position in a financially stable and strong global company.
- The possibility to travel within Europe to attend exhibitions but also assist our local representatives with your product and application expertise
- A chance to grow in an international environment
- You will be rewarded with a competitive salary and a package of extra-legal benefits.

Interested?!

If you are interested to accept this challenge, please do not hesitate to send a motivation e-mail together with your CV to patricia.stas@evapco.be
