Quality Assurance Coordinator

The EVAPCO Group, an American Company founded in 1976, is the leading supplier of Evaporative Cooling Products for the Air Conditioning, Industrial Process Cooling and Industrial Refrigeration Markets around the world. EVAPCO products are at present produced in 17 factories around the globe. The European Headquarters are located in Tongeren, Belgium.

Function Description

The Quality Assurance Coordinator is the right hand of our Quality Manager and is responsible for updating our Quality Management System (QMS), including developing and writing new procedures in line with the EVAPCO agreements.

Shop-floor implementation of global quality procedures is key in achieving the internal quality goals. Detailed and patient communication skills are beneficial to help achieve this target. Hands on technical interest and knowledge is key to give answer to the quality challenges. Job-site visits and sales assistance solving the complex quality challenges enables you to differentiate and grow within the organization. You support and participate in various quality improvement projects. You work closely together with the plant and everybody who is involved in quality. You identify Quality issues and introduce objectives to achieve excellence.

Profile

To be successful in this function it is recommended to have either a Master of Science in Industrial Engineering or a Professional Bachelor degree with relevant experience in an industrial environment. You have an extended technical knowledge and communicate well with people.

A good knowledge of the English and Dutch languages is essential, French and German language skills would be of further benefit.

Offer

Evapco offers you a challenging position in a financially stable and strong global company. You will be rewarded with a competitive salary and a package of extra-legal benefits.

Interested?!

If you are interested to accept this challenge, please do not hesitate to send a motivation e-mail together with your CV to patricia.stas@evapco.be
